NEW HUNGARIAN COOKING PLANT, FOUNDRY INSTALLATIONS;
 MINING, SHIPBUILDING PLANT NAME CHANGES

BUILD COOKING PLANT AT STEELWORKS -- Budapest, Hirek a Magyar Nepi Demokraciabol, 14 Jun 52

The coking plant of the Stalin Steelworks at Sztalinvaros, which will be the first plant in Hungary to produce metallurgical coke from domestic coal, is under construction.

The Stalin Steelworks is expected to produce three times as much fuel gas as the Budapest Gasworks.

INSTALL MODERN FOUNDRY EQUIPMENT, ENLARGE FOUNDRY -- Budapest, Hirek a Magyar Nepi Demokraciabol, 27 Jun 52

Assembly of a modern sand-processing and transporting installation in the foundry of the Matyas Rakosi Works was completed on 19 June 1952. The new installation consists of graders, moistening equipment, and five conveyer belts with a combined length of 360 meters.

Physical labor in processing and transporting the sand within the plant will be practically eliminated. Another advantage is that moistening and grading will improve the quality of casting sand.

The Nagykanizsa iron foundry is to be enlarged considerably in the course of the Five-Year Plan. Construction of a new foundry hall will be begun on 10 July 1952.

CHANGE PLANT NAME -- Budapest, Nepszava, 11 Jun 52

The workers of BAMERT (Mining Machine Enterprise) have decided to change the name of their plant to Duclos Banyagepgyar (Duclos Mining Machine Enterprise).
